

Model Selection

Choose Prediction Module

- ☐ Freight Cost Prediction
- ☒ Invoice Manual Approval Flag

Business Impact

-  Improved cost forecasting
-  Reduced invoice fraud & anomalies
-  Faster finance operations

Vendor Invoice Intelligence Portal

AI-Driven Freight Cost Prediction & Invoice Risk Flagging

This internal analytics portal leverages machine learning to

- Forecast freight costs accurately
- Detect risky or abnormal vendor invoices
- Reduce financial leakage and manual workload

Invoice Manual Approval Prediction

Objective: Predict whether a vendor invoice should be **flagged for manual approval** based on abnormal cost, freight, or delivery patterns.
